### Applicant’s declaration

I apply for a permit to carry out the works described in this application. I declare that all the information given is true and correct. I understand that, if incomplete, the application may be delayed or rejected and more information may be requested.

Name: ..............................................................................................................(please print)

Signature: ........................................ Date: ........................................
Additional Information

The processing period for applications is approximately four weeks. During this period Council will inspect the site and in most cases notify adjoining properties of the proposed works. At the conclusion of the assessment process a written determination will be forwarded to the applicant. Council will prioritise applications accompanied by a qualified Arborist’s report detailing an elevated risk or potential danger associated with a protected tree.

If you are unhappy with the outcome of your application, you may apply for a review of the decision. Additional information must be supplied to support any request for review. It would be expected that additional information would be in the form of a report from a qualified and experienced arborist, structural engineer or similar. Please note: a fee of 50% of the original fee is required. Applications for Review of Determination can be obtained from our website: http://www.woollahra.nsw.gov.au/woollahra/forms#trees

View Pruning

The pruning of trees for the purpose of restoring views is not supported by Australian Standard (AS4373–2007) - Pruning of Amenity Trees and WorkCover NSW Code of Practice ‘Amenity Tree Industry’ - 1998 and can lead to long term problems with the structural integrity and health of the tree. Council will not normally approve the pruning of a tree for the sole purpose of restoring a view; however, where one of the following criteria applies, Council will give due and proper consideration to a request to prune a tree to restore a view.

1. The subject tree has a history of being pruned to maintain your views and the last time the tree was pruned to restore your view is not more than 5 years ago.

2. A young, newly planted tree has just begun to encroach on your established view and the tree is centrally located within the view corridor of your main living area and the distance from the main viewing area to the tree is less than 50 metres. In this circumstance, you will be required to provide documentary evidence such as photographs to show that the present owner (not a previous owner) had a view which has been recently encroached upon.

Owner’s Consent

Applications that do not have the appropriate owner’s consent will be returned. If you are unsure if you have appropriate consent please contact a member of staff in the Tree Department for advice.

Property owned by public or private/independent schools – For applications to undertake work to trees located on school grounds, Council will require the written consent of the school principal (or their nominee). This consent should be provided on school letterhead.

Property owned by company title – The President or a Director of the Board must sign the application and attach the common seal. If the company does not have a common seal (specifically relevant to sole traders) Council will require a letter of consent on company letterhead.

Property owned by an owners’ corporation – The secretary/chairperson or an authorised officer of the body corporate must sign the application and attach the common seal. The application must be accompanied by a minute from a meeting of the Body Corporate or Executive Committee at which it was agreed to undertake the listed works.

The Applicant

An individual person is required to be nominated as the applicant. The applicant can be a representative of a company or strata plan or an employee of real estate or strata management company. The applicant will be the person contacted if Council requires any additional information or needs to clarify any of the details on the application. Where an individual has not been nominated as the applicant the owner of the property will automatically become the applicant.
